Skin Rejuvenating Mechanism of Growth Factor

Cutting edged and patented biomaterials, which are based on biotechnology, result in bright and elastic facial texture by assisting skin rejuvenating

1st step Prevention (Anti-oxidant)

TRX : Protect skin from free radicals Reduce free radical

2nd step Wrinkle improvement Epidermal cell proliferation & Miniaturization

EGF: Proliferate epidermal cell

IGF-1: Promote epidermal / dermal cell proliferation. Synergic effect with EGF and bFGF

bFGF: Promote cell proliferation and increase biosynthesis of the hyaluronic acid synergistically with EGF and IGF-1

3rd step Wrinkle improvement Collagen, elastic and other extracellular matrix (ECM) synthesis

EGF: Proliferate epidermal cell

IGF-1: Increase synthesis collagen and elastic

bFGF: Increase synthesis collagen and elastic

Beaucell Instruction

Anti-aging/ Anti-wrinkle/ Skin Rejuvenation

Home Care & Special Care

Sun Protection

Peeling

Wound Healing after Laser Therapy / RF Therapy

Basic Sequence of Beaucell

Anti-Aging Regeneration Daily Program

[How to use]

Apply to clean facial skin day or night as you need.

Anti-Aging Regeneration Special Program

[How to use]

1. For the first step, apply 1~2 drops of the ampule and massage with 'Beaucell Deep Ioner' step-D. Tap the remains to absorb into the skin.
2. Apply Special Gel on to the top of the head of 'Beaucell Deep Ioner', massage with step-S onto the face. Tap the remains to absorb into the skin.
3. Our program is an anti-aging treatment that provides hydrated and supple facial skin with 4~5 weeks constant use of these steps.

**How to use
'Beaucell Deep Ioner'**

Eyes

Smooth around the eyes, using a circular motion with it.

Forehead

Press softly around the forehead, move in a circular motion, massage to the top of the forehead.

Cheek and jaw

Gently massage the cheeks, starting at the jaw to the top of the cheeks, moving upward in a gentle motion.
